M SERIES RESERVE™ MEDICINE CABINETS

M SERIES RESERVE MEDICINE CABINETS

Raise the bar for bathroom storage. The M Series Reserve Collection elevates the sophisticated profile and unparalleled versatility of our M Series cabinets with more options, more organization, and more features than ever before.

THE INSPIRATION BEHIND M SERIES RESERVE

Driven by our commitment to improve upon perfection, we've enhanced the luxurious functionality of the original M Series Medicine Cabinet with new organizational features, innovative technology, and a wider range of sizes and configurations for the ultimate in design flexibility.

Enhanced Features to Improve Your Morning Routine

A full length cabinet lets you fine-tune your look from head to toe while storing products, linens, and other daily essentials out of view — but always within easy reach.

STORAGE TRAY

A convenient tray with a textured, non-slip polymer surface keeps eyeglasses, contact lens cases, and jewelry off the wet countertop and provides additional shelf space for smaller items.

The swing-out mirror pivots for the perfect angle while grooming, then nestles conveniently within the cabinet when the door is closed.

UPGRADE FEATURE

MAGNIFICATION MIRROR

Bring fine-tuned tasks into perfect focus with a height-adjustable 5x magnification mirror for detailed styling tasks like tweezing or cosmetic application.

MAGNETIC STORAGE

A mounted magnetic strip keeps metal grooming tools neatly arranged — no more digging through drawers for tweezers, clippers, or bobby pins.

UPGRADE FEATURE

ELECTRICAL OUTLETS AND USB PORTS

Keep your styling tools and tech devices powered up — and safely off the countertop — with two integrated USB ports and two built-in electrical outlets to accommodate four plugs.

UPGRADE FEATURE

WIRE ORGANIZER

Keep cords and charging cables from getting tangled up in your essentials. A convenient organizer mounts anywhere along the vertical rail and keeps wires tidy and tucked away.

UPGRADE FEATURE

INTEGRATED INTERIOR LIGHTING

Lighting turns on automatically when the cabinet door is opened to fully illuminate the interior and provide easy access to your essentials, even at night.

UPGRADE FEATURE

STORAGE BINS

Two coordinating bins — one with open storage, and one with a geometric divider — tame small items like makeup brushes, cosmetics tubes, and pencils. Bins are removable for easy cleaning.

UPGRADE FEATURE

NIGHT LIGHT

Soft LED lighting along the bottom of the cabinet door casts an elegant glow over your styling space and provides gentle wayfinding light. The built-in timer can follow an automatic 12-hour on/off cycle or be programmed to suit your preferences.

UPGRADE FEATURE

AUTOMATIC DEFOGGER

Move effortlessly through the daily routine with ambient intelligence that anticipates your needs. Our patented technology senses the moisture levels in the bathroom and automatically activates the defogger to ensure a clear reflection.
