THE FACET

From geometric accent pieces to angular glass skyscrapers, the facet can elevate any design with its three-dimensional beauty and jewel-like radiance. The Murray Hill Collection features a faceted frame that brings texture, depth, and elegance into your bathroom space.

THE PILL AND ARCH

Throughout centuries of design evolution, the arch has endured as an architectural element that adds beauty, balance, and an inviting sense of openness. The Murray Hill Collection features a traditional arch shape and contemporary pill shape that make a dramatic visual impact while lending softness to your space.

Facet Medicine Cabinet and Mirror

Stunning design meets state-of-the-art functionality, with thoughtful features that simplify the daily routine. Available in two finishes, the hand-constructed faceted frame reflects light in multiple directions, echoing the eye-catching cut of a gemstone.
