LIGHTING COLLECTIONS

ROBERN LIGHTING

Streamline your design with the sleek profile and unparalleled versatility of vertical lighting. Our modular lighting solutions are designed to pair seamlessly with Robern medicine cabinets and mirrors, or stand alone as a sconce — so you can create bespoke solutions in the bathroom and beyond. Thoughtful features like dimming and color tuning transform the daily routine into a personalized wellness ritual.

BENEFITS OF LIGHTING

Lighting plays a pivotal and often underappreciated role in bathroom design. Beautiful fixtures can put the finishing touch on a well-appointed bathroom, illuminating the space and evoking a sense of spa-like luxury each time you step through the door.

But the impact of ideal lighting goes far deeper than the first impression. Brightness and color temperature — perfectly in tune with your daily rituals — can enhance each step of your day and create a calming haven within the home.

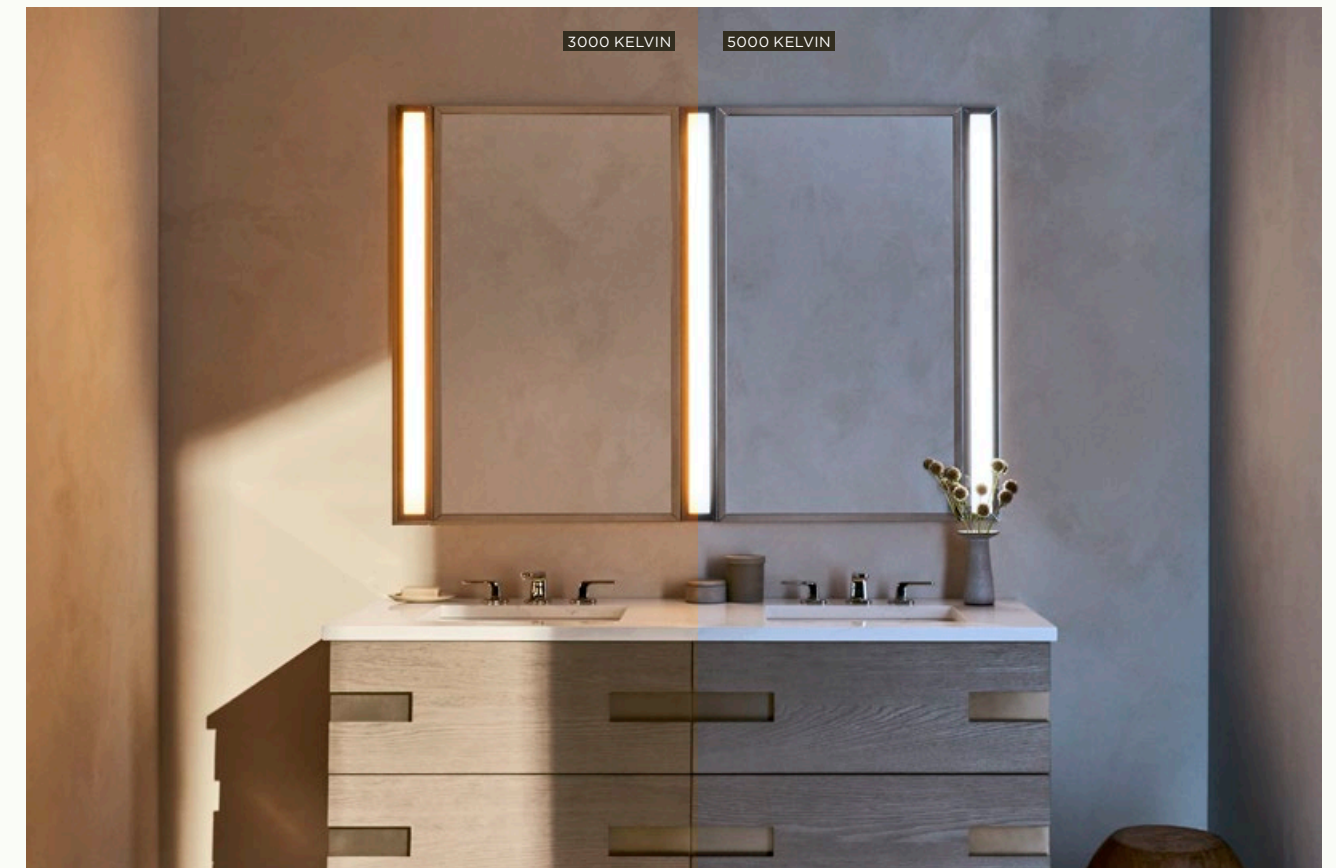

Elevate Your Environment

Experience lighting that adapts to your precise needs. With Robern dimming and color tuning technology, you can optimize brightness and color temperature to align with your daily routine and circadian rhythms.

DIMMING

Flicker-free dimming allows you to select the ideal brightness for any task — from bright task lighting in the morning to soft wayfinding light at night.

COLOR TUNING

Fine-tune the color temperature to reflect the various environments you'll encounter throughout the day — whether it's an outdoor hike, a bright office, or a candlelit dinner.

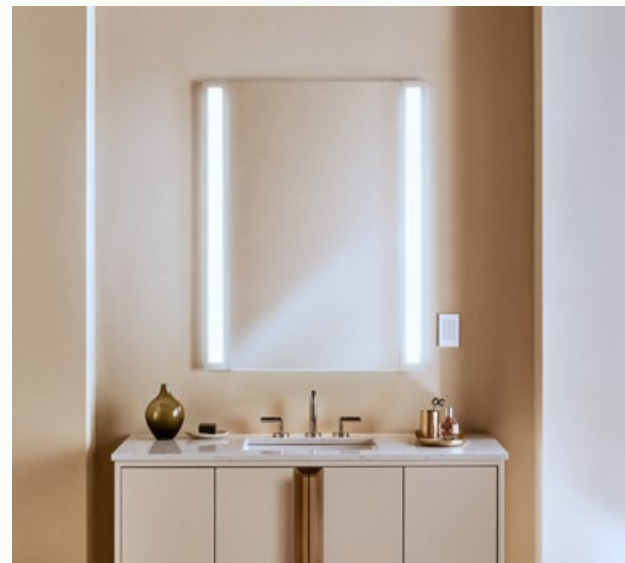

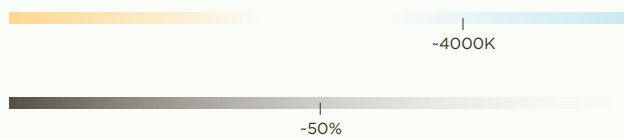

Select Your Ideal Ambiance

Prepare. Relax. Recharge. Wherever the day takes you, Robern tunable lighting lets you create an environment that feels perfectly tailored to your preferences. Select cool, invigorating tones that mimic natural sunlight, or warm tones that enhance reds and oranges for a calming effect.

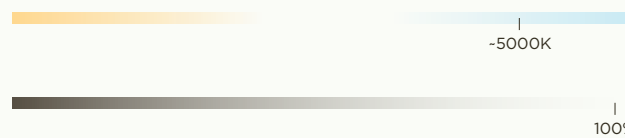

Waking Up

Set brightness at 50% to gently ease into your morning routine. Select a cool color temperature (4000K) that mimics natural daylight for an invigorating effect.

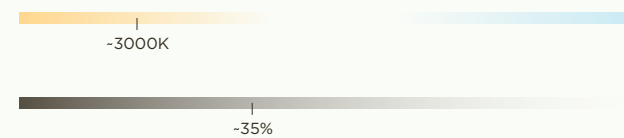

Grooming

Select 100% brightness and a crisp color temperature (5000K) for up-close tasks like shaving and cosmetic application. Vertical lighting eliminates harsh shadows on the face for optimal visibility.

Winding Down

When you're ready to unwind in the evening, set dimming at 35% and opt for warm lighting (3000K) to create a spa-like atmosphere that promotes relaxation.

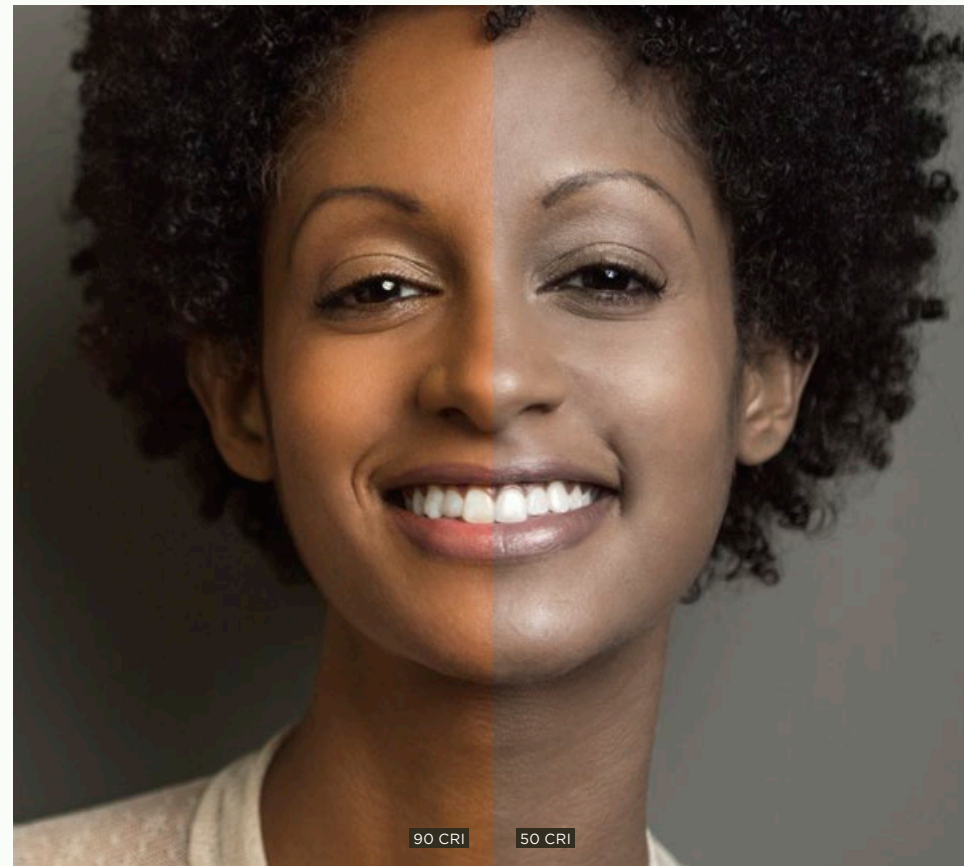

Wayfinding

Select warm lighting at 5% brightness to provide just enough light to safely navigate your bathroom at night — without fully disrupting your circadian rhythm.

Optimal Lighting For Your Routine

See yourself in the best light and prepare for the day ahead with bright, consistent lighting that perfectly illuminates the face. Vertical lighting illuminates the face at eye level and casts diffused light from two directions, eliminating glare and shadows for optimal visibility.

QUALITY AND DIRECTION OF LIGHT

Vertical lighting illuminates the face at eye level and casts diffused light from two directions, eliminating glare and shadows for optimal visibility.

Lighting Styles

Harness the artistry of light with options that perfectly illuminate your aesthetic — whether it's a dramatic modular display or subtle elegance of a standalone sconce.

Modular Lighting

Vertical lighting pairs seamlessly with Robern medicine cabinets and mirrors to create bespoke solutions.

Sconce Lighting

Provide light where you need it, highlight an architectural feature, or add an element of artistry to any space.

LIGHTING COLLECTIONS

Discover the exceptional design flexibility of Robern lighting. Add a touch of modern artistry with a standalone sconce, or pair our modular lighting with Robern medicine cabinets and mirrors to create a personalized lighting solution that fits flawlessly in your space. Industry-leading technology — like flicker-free dimming, color tuning, and innovative lighting control — helps you set the tone for your day with a single touch.

Tenor Lighting

Available in three elegant styles inspired by the golden age of Hollywood glamour, Tenor Modular Lighting pairs with Robern medicine cabinets and mirrors for flawless design flexibility, while Tenor Sconce elevates any space in the home with the artistry of light. Robern's proprietary SWAY Control offers unparalleled control over the lighting environment with one-touch dimming, tuning, and personalized presets.

TYPES

Modular

Add depth and drama to your medicine cabinet with three distinctive styles.

Sconce

Create artful displays with the flexibility of standalone installation.

Tenor Lighting

Set the tone for any occasion with two levels of lighting control. Tenor Dimmable Lighting provides energy-efficient LED lighting with flicker-free dimming for ideal brightness. Tenor Tunable Lighting pairs with our proprietary SWAY Control for one-touch dimming, color tuning, and personalized presets (required, see page 22).

STYLE OPTIONS

Diamond

Add a luxe touch to your design with an elegant diamond form.

Fluted

Subtle fluted detailing perfectly complements a more traditional aesthetic.

Round

Create contrast with bold, eye-catching round metal accents.

METAL ENDCAP FINISHES

Chrome

Polished Nickel

Brass

Matte Black
